

# WebCube

One System Solution, Collaborating with MitechSoft gives you : **WebCube**, a web based groupware application developed on todays advanced technology. It is a scalable, reliable, robust, cost-effective and easy to manage communications, messaging and collaboration tool.

WebCube allows you to communicate and collaborate effectively from anywhere in the world. It also serves as a platform where you can manage and share your documents with other members in your organization at your own private and secure environment.

WebCube is easy to use. There is no hardware to buy and no software to download. The system is reliable, scalable and robust. You can create unlimited number of users with no obligation on user licensing fees. It is an ultimate solution for organizations that are looking for cost effective solution to meet their needs.

*“I used to pay a lot for licensing. Now, I don't need to pay anymore...”*
